**Subject:** Permitting 101 for Cook Inlet Tribes

Hello Cindi,

I just wanted to confirm that we were still on for the Permitting 101/Oil and Gas Permitting training planned for Cook Inlet tribes, and the general plan for the presentation. Both Gerry and I will attend, and I am happy to talk about the APDES process and general public involvement components, as well as more general Permitting 101 type things if you think its warranted. Gerry can speak to the oil and gas industry activity in the region and wastewater discharge streams.

I'm not sure exactly what you guys have in mind, but Kathleen indicated that you may be interested in seeing some slides I previously presented with Wade Strickland at the Alaska Forum on the Environment, and the APDES process. I'm happy to help pull something together from it for anything you'd like me to cover, and you are welcome to glean from it if there is anything useful.

Let me know if I can help, or if you'd like us to speak to anything.

Thank you,

**Miriah D. Twitchell**
